

OTHER AUXILIARIES

PRODUCT	CLASSIFICATION	CHEMICAL NATURE	pH 10% Solution	IONIC NATURE
Popslip SP powder	Slip Agent	Mixture of inorganic and organic compounds (prevents entanglement and knotting as well as rubbing marks)	6.5-7.0	
Sodium Formate	Formic Acid sodium salt	Formic Acid sodium salt	7	
Pop DS Powder	Organic Sequestering Agent	Mixture of EDTA & modified meta phosphate	10.5	Anionic
Poplix DLA	Amphoteric Dispersing Agent	Amphoteric fatty acid derivative containing water solubilising groups	8	Anionic
Poptan LR	Dye Levelling and Dispersing Agent	Sodium Salt of an aromatic Sulphonic acid ,anionic	7	Anionic
Poptan LF	Levelling Agent with slight tanning properties; dispersing agent for vegetable tannins	Conc of Napthalene Sulphnic Acid Condensate & formaldehyde free	7	Anionic
Poptan SL-2	Dispersing and Bleach Tanning agent for vegetable tanned leather	Naphthalene sulphonic acid condensate.	1.8-2.0	
Popfill PB Powder	Protein Filler	Modified protein	6.5	Anionic
Popfill BA Powder	Protein Filler for White Leather	Modified protein	6.5	Anionic
Popfix L	Fixing Agent	Inorganic compound	2.5	Cationic

Popfix 9FD	Formaldehyde Free Dye Fixing Agent	Modified polyakyleneamine		Cationic
Popdegreas or DGI Liquid	Degreasing Agent	Blend of solvent and anionic emulsifier	7.5	Anionic
Popdegreas or AMG Spl.	Degreasing Agent	Polyglycol ether	7.50	Anionic
Poptan LDP	Levelling and Dispersing Agent	Sodium Salt of an aromatic sulphonic acid	8.5	Anionic
Poptan AP	Masking and basifying agent in chrome tannage.	Mixture of special dicarboxylic acids	7	
Poptan ND	Levelling and Dispersing agent	Sodium Salt of an aromatic sulphonic acid, anionic.	7	Anionic
