Efficient penetration. o Excellent yield.

Good fixation.

For retannage of chrome leather Pop GS Powder permits : o Bellies and flanks fillings.

Better buffing properties. o To keep embossing effect. o Excellent polish effect.

### APPLICATION :

Pop GS Powder may be used alone or blended with other vegetable extracts. The following use is recommended :

Based on limed weight

25-30% of Pop G8 Powder for vachetta tannage ( veg leather ) 0 40 - 45% of Pop G8 Powder for soles tannage.

Based on shaved weight

0 5-15% of Pop GS Powder for chrome leather retannage.

### RECOMMENDATION :

During the leather production, there may be a risk of iron contamination. In order to prevent this, we suggest to use an iron-sequestering agent such as Pop DS Powder (0.2% on the reference weight), which may be added together with the first addition of tanning agents on the tanning or retaining processes.

### STORAGE :

Pop GS Powder maintains its characteristics unchanged if properly stored in dry premises protected from sunlight in closed bags.

### PACKING :

Pop GS Powder is presented in a powder form, dedusted, and packed in a 25 kgs jute bag net weight.
