

POPTAN SW

(PHENOL FORMALDEHYDE FREE WHITE SYNTAN)

A non-yellowing synthetic white syntan which is phenol & formaldehyde free.

ANALYTICAL DATA :

Chemical Type	:	Synthetic Cellulose
Concentration	:	94% (± 2)
Active Matter	:	80%
pH of 10% solution	:	4.0-5.0
Solubility	:	Readily soluble in water
Charge	:	Anionic
Appearance	:	White Powder
Moisture Content %	:	3.0%

PROPERTIES :

Poptan SW is a white powder readily soluble in water.

Poptan SW provides good, light fast white coverage on chrome leather and produces a fine, tight and smooth grain.

Poptan SW renders good filling effect and brightens the colour considerably in dyeing of pastel and clear shades.

Poptan SW when used in retannage of chrome leathers produces leather which has good buffing properties.

Poptan SW is compatible with all synthetic and vegetable tannins and when used in vegetable tanning, it accelerates the penetration of vegetable tannins and brightens the colour of the resultant leather.

Poptan SW is an environment friendly filling syntan that contains no hazardous material.

APPLICATIONS :

POPTAN SW is suitable for a wide range of applications in the production of :

- full chrome and retan upper leathers.
- aniline and pastel coloured leathers.
- suede clothing leathers.
- in clothing nappa.
- in vegetable tanning
