

POP SRXNI

(Degreasing and stain removing agent)

POP SRXNI is a degreasing and stain removing agent for scouring and bleaching of cotton, polyester and wool fabrics.

PROPERTIES

- powerful scouring cum degreasing agent.
- Stable under normal disperse dyeing conditions.
- Removes spin oil residues.

FIELD OF APPLICATION

Substrate	cotton, polyester and wool fibres and fabrics.
Machines	bleaching and dyeing.
Operation	scouring

CHARACTERISTICS

Type of product	cryptoanionic agent containing solvents.
Lonogenity	cryptoanionic
Appearance	yellow viscous liquid.
pH 1% solution	6.5 – 7.5

APPLICATION

Guide recipes	Scouring & Dyeing of Polyester
	Set bath at 60 – 70°C and add 0.5 – 1.0 g/l POP SRXNI
	Run for 5 minutes and add
	0.5 – 1.0 g/l POPMOLLAN FBSN
	1.0 g/l POPTAMOL DC
	and dye as usual
	Wool Scouring
	0.5 – 1 g/l POP SRXNI
	2 g/l SODA ASH AT 60°C for 45 mins.

SPECIAL REMARKS

Storage stability approximately 12 months under normal conditions of storage.
