POP WBL

Bleaching Agent based on organic acids and sequestering agents.

SPECIFICATIONS:

Appearance : Off White Powder.

pH (1:10 Soln.) : 1.5-2.0

PROPERTIES :

- **POP WBL** is especially developed for bleaching of sole leathers, light soles and pure vegetable leathers.
- **POP WBL** eliminates all kinds of spots, such as iron spots, spots caused by natural oxidation and any other impurities present during the tanning process.
- **POP WBL** provides a uniform and very light colour, without changing the superficial structure of the leather.

APPLICATIONS:

In case of vegetable leathers, such as soles and light soles, it is recommended to use 0.5% - 0.8% on the shaved weight.

In case of vegetable retanning of chrome tanned leathers, it is recommended to use 0.2% - 0.5% on the shaved weight.

STORAGE :

Store away from moisture and direct sunlight.
