POPSYNTH 1104 NQ

Synthetic, Light Fast Fatliquor.

Appearance	: Clear yellow coloured liquid.
Ionic Nature	: Anionic.
pH of 10% solution	: 7.5 ± 1 .
Active Matter	: $60\% \pm 1$.
Stability	: Stable to electrolytes in usual concentrations. Emulsion stability is excellent even in hard water.
Compatibility	: Compatible with anionic dyes, fatliquors as well as synthetic and vegetable
tanning agents.	
Dissolution	: Easily emulsifiable in hot or cold water.
Fastness to Light	: Good.

PROPERTIES:

- **Popsynth 1104NQ** is highly penetrative fatliquor which imparts excellent softness to leather. It also provides pleasant handle and smoothness to the leather surface.
- **Popsynth 1104NQ** imparts required degree of softness and fullness without making the grain loose.
- **Popsynth 1104NQ** is designed specially for the sophisticated class of leather which require soft feel with light weight.

APPLICATION :

- **Popsynth 1104NQ** is suitable for all types of leather, specially to make softy upper, lining, D.D. without looseness.
- **Popsynth 1104NQ** is specially suitable for nubuck, garment, nappa, drymill, upholstery, etc. as it gives excellent softness with light weight.

STORAGE STABILITY :

Popsynth 1104NQ can be stored for about one year under normal conditions and temperatures. The product should always be stirred before use as a precautionary measure due to temperature changes.
