## POPSYNTH 2100

Synthetic Oil, Sulphited Ester Based

### CHARACTERISTICS :

Appearance	: Brown liquid.
Chemical Nature	: Synthetic Oil, Sulphited Ester Based
pH of 10% solution	: 7.0 $\pm$ 1
Active Matter	: 70%
Fastness to Light	: Excellent
Ionic Nature	: Anionic

### PROPERTIES:

- **POPSYNTH 2100** is highly penetrative fatliquor which imparts excellent softness to leather. It also provides pleasant handle and smoothness to the leather surface.
- **POPSYNTH 2100** imparts required degree of softness and fullness without making the grain loose.
- **POPSYNTH 2100** is designed specially for the sophisticated class of leather which require soft feel with light weight.
- **POPSYNTH 2100** imparts excellent light fastness.

### APPLICATION :

- **POPSYNTH 2100** is specially suitable for garment, nappa drymill, upholstery, nubuck, etc. as it gives excellent softness with light weight.

### STORAGE STABILITY :

**POPSYNTH 2100** can be stored for about one year under normal conditions and temperatures. Under extreme climatic conditions this product may separate slightly, So it should always be well stirred prior to use.
