POPTAN WAT

(Eco Friendly Chrome Free Tanning Agent)

TECHNICAL DATA:

Appearance	:	White Powder
Chemical Composition	:	Mixture of Organic & Inorganic compounds
pH (10% Solution)	:	4.0-5.0
Charge	:	Anionic

PROPERTIES:

- POPTAN WAT is an eco friendly product which is totally free of phenol, formaldehyde, naphthalene and sulfone.
- POPTAN WAT usage gives very low COD/BOD load on the effluent system, which is quite desirable in modern day industry requirements.
- POPTAN WAT is biodegradable. It is recommended in producing chrome free and wet white leathers.
- POPTAN WAT has a selective filling action, mainly depositing in the loose structured parts of the leather.
- POPTAN WAT is compatible with vegetable tanning extracts and when used with vegetable extracts gives extra softness with increases fullness without altering vegetable character. It also eliminates the usage of glutaraldehyde based tanning agents.
- POPTAN WAT can be used as a bleaching agent in the retanning stage.

APPLICATION:

POPTAN WAT is recommended for furs, garment, automotive, upholstery, suedes, nubuck, shoe nappa, gloves, split and bag leathers.

POPTAN WAT is used for pre tanning and tanning leathers. For tanning cow leathers its recommended dosage is 6-10%

For tanning small leathers its recommended dosage is 5-8% and for tanning fur leathers its recommended dosage is 5-7%

STORAGE:

POPTAN WAT maintains its Characteristics Unchanged If Properly stored in dry premises and its shelf life is minimum 2 years.
